The next 50 years, our story continues

Gearing up

Enabling the future
The next 50 years, our story continues

“South Africa requires of its great institutions, like Hilton College, to lead.”
George Harris, Headmaster

Great schools around the world have stood the test of time, and act as custodians of our future by:

- Remaining beacons of excellence and of hope
- Nurturing and moulding the promise of tomorrow’s great thinkers, innovators, creators and leaders
- Being incubators of our collective tomorrows

Hilton College has made significant strides in this direction. With the support of the Hilton family we have grown our Endowment, delivered more Capital Projects, and awarded an increased number of Bursaries.

We’ve also transcended the boundaries of Hilton College to contribute significantly to developing Maths and Science teachers and learners in several communities through the Vula Programme.

As we approach our 150th year, it is our strong conviction to continue developing our capacity to lead supported by the Hilton Family, enabling the future.
Old Boys

Thousands of Hilton boys have helped to shape South Africa and the world over the past 145 years, and credit Hilton College for its impact in their lives and their lifetime achievements.

A few notable old boys from the past 70 years *(click on a photo for more detail)*
After starting a career in mining engineering, English switched to medicine and went on to lead the team that performed Britain's first successful heart transplantation in August 1979. This was soon established as one of Europe's leading heart-lung transplant programmes. English became President of the Royal College of Surgeons 1989-92, Master of St Catharine's College, 1993-2000, Deputy Lieutenant Cambridgeshire 1994-2001 and President of the British Medical Association 1995-1996.

A member of the General Medical Council (GMC) (1983-1989), he has also been President of the International Society for Heart Transplantation 1984-1985 and holds multiple international honorary fellowships and Doctorates of medical colleges and universities. He was knighted in 1991.
Recognised as an expert in constitutional law, Justice Chaskalson was a consultant to the Namibian Constituent Assembly, a member of the Technical Committee on Constitutional Issues in South Africa, and a consultant to the Multi-party Negotiating Forum. He was a consultant to the African National Congress during the constitutional negotiations. In that capacity he participated in drafting an interim Constitution.

In June 1994, he became the first President of South Africa's new Constitutional Court, the highest court in South Africa where constitutional matters are concerned. On 22 November 2001 he became the Chief Justice of South Africa until his retirement in 2005. He passed away on 1 December 2012.
Michael Winston (Mike) Melvill

1958, Churchill
Space Explorer

Known as the first privately funded human spaceflight mission pilot to reach space, Melvill piloted SpaceShipOne developed by Scaled Composites on its first flight past the edge of space. Flight 15P on June 21, 2004 saw him becoming the first commercial astronaut and the 434th person to go into space. He was also the pilot on SpaceShipOne's flight 16P, the first competitive flight in the Ansari X Prize competition.

Melvill is the sole or joint holder of nine FAI aviation world records in various categories. He was awarded the Nen C. Kincheloe Award in 1999 for high altitude, developmental flight-testing of the model 281 Proteus aircraft.
Paul Alistair Maritz

1972, Newnham
Business Magnate and Investor

Maritz joined Microsoft in 1986 and the last position he served was Vice President: Platform Strategy and Developer Group. He founded Seattle-based information management provider Pi, which was acquired by EMC in 2008, and is currently known as the Cloud Infrastructure and Services Division of EMC.

Maritz served as its President and General Manager. He was appointed CEO of EMC's subsidiary, VMware, a Palo Alto, California-based virtualization software and services provider and currently serves as its Executive Chairman. Maritz also serves as a Director at the Grameen Foundation that promotes micro lending in developing countries.
Andrew Grant Smith
1998, McKenzie
Leading e-Tailer

Andrew is the co-founder and Managing Director of Yuppiechef, and heads up their strategy and technology. After developing websites and intranets for clients since 1999, he founded Yuppiechef in 2006 with Shane Dryden and Paul Galatis (1998, Ellis) as a part-time venture while they continued to run a small web agency.

Yuppiechef has since grown into one of South Africa's leading online retailers – an online kitchen and homeware store, stocking over 300 of the world's leading brands. From knives, cookware and appliances - to soft furnishings, craft beer and the finest food ingredients, winning the country's E-commerce Awards for best overall site each year since 2010.
Founder and CEO of wiGroup. Founded in 2007 with a vision to replace people's wallets with their mobile phones, wiGroup's platform is live in more than 72 000 till lanes across South Africa and Africa, and more than R6 Billion worth of transaction value has been processed through the platform. Bevan Ducasse and wiGroup's recent awards include:

- Best Alternative payments award at the Card and ePayments Africa event (2014)
- Global Endeavor Entrepreneurship Programme participant - one of only 29 high-impact entrepreneurs to receive this honour globally in 2014
- 'Maverick under 35' winner in Johannesburg (2014)
- wiGroup won inaugural PWC Vision to Reality awards programme in SA, and the global leg of this programme, Local to Global, in Luxembourg (2015)
- 'Young Presidents Organisation' member (2015)
- wiGroup was the 2016 FNB Innovation award winner.
Lungi Ngidi can reach speeds in the 140s kph and is a comfortable opener, making him one of South Africa's most promising limited-overs prospects. Ngidi was involved at every provincial age-group level from under-13. He played for KwaZulu-Natal Under-19s at the Khaya Majola week in 2014.

He was identified as a T20 prospect early on when he finished as the joint second-highest wicket-taker in the Africa Cup in 2015. His six wickets came at an average of 12.50 and helped Northernns win the title. Named Africa 120 Cup Player of the Year in 2017, Ngidi was picked for South Africa's 120 squad to face Sri Lanka and was named Man of the Match on debut.
In the rich annals of South African rugby history, Gary Hamilton Teichmann led the national team during what many considered to be its most glorious period, between 1996 and 1999. Known as *Captain Courageous*, this old Hiltonian led the Springboks on a world record winning streak of 17 consecutive test matches.

As part of their unbeaten run, they chalked up record victories over Australia (61-22), France (52-10), Scotland (68-10) and Wales (96-13), as well as levelling out Ireland (33-0) and Italy (74-3). Teichmann, who was respected throughout the rugby world for his humility and sense of fair play, was a winning captain in the true sense of the word.
Xilombe, who sadly passed away in March 2018, was a great inspiration to many. He lost his arm in a freak accident on an outward bound trip to the Drakensberg when he was 15. He dealt with his newly found reality with courage and maturity beyond his years, and it pushed him in ways he couldn’t imagine. He started giving speeches at schools to motivate others to look beyond their challenges, and even learned how to write with his left hand.

From this journey, Xilombe founded the Limitless Foundation, which acts as a support system for youth who are going through similar situations, but who do not have access to the same kind of support he had. The Foundation uses its network to assist with references to doctors, provide advice and counselling, physical therapy and even equipment such as specialised computers for learners. With this achievement he was awarded the Lead SA Youth Hero of the Month last year.
Sandile Zungu

1982, Newnham
Captain of Industry

Mr Zungu is the founder and executive chairman of Zungu Investments Co. Mr Zungu currently serves as a non-executive director of inter-alia Grindrod Limited, and Novus Holdings and non-executive Chairman of EOH Holdings, all listed on the JSE Limited. He is a member of the BRICS Business Council and also serves on the BBBEE Presidential Advisory Council.

Mr Zungu is also Chairman of the UCT Graduate School of Business advisory board. He completed a BSc (Mechanical Engineering) degree at the University of Cape Town (UCT), a Master’s degree in Business Administration (MBA) at the UCT Graduate School of Business and a Program for Global Leadership certificate at the Harvard Business School in Boston, USA.
Conductors who have worked with Nathan have labelled him as one of the most gifted young singers of his time. In 2016 he featured as soloist with the acclaimed South African conductor, Richard Cock and the Chanticleer Singers, in two performances of Handel's Messiah, as well as with the KNZPO in a performance of an aria from Haydn's Creation and as alto soloist with the Baroque 2000 Orchestra in a performance of JS Bach's St John Passion in Durban.

He has completed several practical examinations with distinctions, of which the most recent was the Grade 8 Singing Examination which he passed with 90%. He completed his first semester at the 'Schola Cantorum Basiliensis' in Basel, Switzerland in 2018, studying towards becoming a professional singer as a counter-tenor - aided by funds raised by a group of Old Hiltonians as well as a scholarship from the Schola.
South African novelist, essayist, and academic. He is the director of the creative writing program at the University of Cape Town. He has taught 19th-Century Studies and Creative Writing at a number of US universities. His debut novel, *The Wedding*, published simultaneously in the US and SA in 2001, has been translated into Hebrew and Italian. The novel was well received, garnering a variety of accolades such as runner-up in the Sunday Times Fiction Award (2002), longlisted for the IMPAC Dublin International Literary Award, a finalist for the first annual Connecticut Book Award, and shortlisted for the Ama-Boeke Prize (2003), and was chosen as book of the week by Exclusive Books (South Africa) and Asian Week.com. He has also won The Sunday Times Fiction Prize and the University of Johannesburg Prize for his 2010 novel, *High Low In-Between* and the English category of the M-Net Literary Awards for his 2012 novel, *The Institute of Taxi Poetry*. His early writing is considered an important addition to Indian-South African literature, in that it deals with the issues of migration, historical concerns, loss of culture and nationality. His style is comedic and thoughtful. His later writing, such as the *Institute for Taxi Poetry*, is set in Cape Town and explores both the taxi industry and the intricacies of life in Cape Town.
Vula Programme

Since 2014 a total of 104 teachers from across the province attended the term-long Vula Mathematics Academy (VuMA) hosted at Hilton College.

Annually two intakes of teachers spend a full school term of 11 weeks at the College being exposed to new, interesting and exciting ways of teaching Mathematics. Each participant is issued with a laptop and most of the coursework is done on computer. Together these educators teach Mathematics to some 16 000 learners in the Umgungundlovu educational district of KwaZulu-Natal – one tangible example of Hilton College’s impact on the education – and ultimately the economic growth and stability of the region.

Watch our Vula video (requires internet connection)
The following statistics illustrate the impact of VuMA:

There are 155 government secondary schools in Umgungundlovu district, around Pietermaritzburg, including the rural areas of ElandsKop, Mpendle, and Wartburg up to Mooi River.

120 of these are schools situated in townships and rural communities, attended almost exclusively by isiZulu speaking learners who are taught Mathematics in their second language.

45% of these schools have one or more Mathematics teachers who attended VuMA since 2014.

The overall Grade 12 Mathematics results have improved by 15% and the district’s Grade 12 Mathematics results are now ranked second out of 11 districts in KwaZulu-Natal – up from seventh five years ago. The Senior Education Specialist for Mathematics in the district attributes this improvement mainly to the input of the VuMA Academy since 2014.
Most of the leading schools around the world do not rely only on school fees – they have a substantial financial base (General Endowment) in the form of capital reserves that they rely on to fund the future in terms of capital projects, and bursary provision. To this end we’ve prioritised our short, medium and long term objectives.
General Endowment and Bursaries

A substantial Endowment Fund will afford Hilton College the opportunity to direct its intake such that deserving boys from all walks of life are gifted the opportunity to be schooled at Hilton. Our aim is that our Endowment Fund reaches R350m in the 150th year.

Capital Projects

We have been gifted a number of beautiful buildings over many years. The number of boys using these facilities daily necessitates management and improvement of these. New thinking in academic programmes and practices necessitates that we stay ahead of the curve with our facilities for future generations of Hiltonians.
“South Africa requires of its great institutions, like Hilton College, to lead”
George Harris, Headmaster

Great schools around the world have stood the test of time, and act as custodians of our future by:
- Remaining beacons of excellence and of hope
- Nurturing and moulding the promise of tomorrow’s great thinkers, innovators, creators and leaders
- Being incubators of our collective tomorrows

Great schools are reliant on benefaction and gifts of time and money from those who have understood the part their school played in their ability to succeed in life.

Hilton College has made significant strides in this direction. With the support of the Hilton family we have grown our general endowment, delivered more capital projects, and awarded an increased number of bursaries.

We’ve also transcended the boundaries of Hilton College to contribute significantly to developing Maths and Science teachers and learners in several communities through the Vula Programme.

As we approach our 150th year it is our strong conviction to continue to develop our capacity to lead by drawing on the support of the Hilton Family.

What is an Endowment?

“Endowment” refers to the total of a non-profit institution’s investable assets, which is meant to be used for operations or programmes that are consistent with the wishes of the donor and the strategy of the organisation. Most endowments are designed to keep the principal amount intact while only using the investment income. Great educational institutions the world over have significant endowments. Realising Hilton College’s ambitions for the future is dependent on growing our endowment.
#FUTUREofHILTON

Legacy of Hilton College's 150th Celebration

Grow Hilton College Endowment Foundation (HCEF) through:
- Residential developments
- Bequests and planned giving
- Large donations

An annual giving challenge for old boys towards bursaries and financial assistance.

Provide more financial support for boys in need.

Fund and implement strategic capital projects.

Enabling the future

Be a #FUTUREofHILTON Ambassador

Wear the #FUTUREofHILTON badge at all Hilton gatherings up to 2022 and beyond

Share the reasons for Hilton needing funds and resources

Contribute to the future of Hilton
Give back

Giving back in time, talent and money - donations or sponsorships will enable us to realise the #FUTUREofHILTON

The difference between Donations and sponsorships

The words donation and sponsorship are often used in the same context to describe funds that have been received as gifts. Donations and sponsorships are, however, two completely different concepts.

**Donations**
Donations are made by an individual/company/foundation/trust, etc for specific development projects. Bona fide donations and donors (no conditions or benefits attached) are entitled to tax rebate certificates according to Section 18A of the Income Tax Act.

**Sponsorships**
Sponsorships are regarded as marketing budget expenditure. It is a commercial transaction and return on investment by means of marketing opportunities, e.g. advertising on programmes, clothing or plaques on buildings.
Ways to Give

South Africans via Electronic funds transfer (EFT)

The Hilton College Endowment Foundation (HCEF) oversees the investment of the Endowment and is controlled by seven Trustees, four “Independent” and three appointed by the Board of The Hiltonian Society NPC.

The functions of the Trustees are to receive and control funds raised towards the Endowment Fund, to manage and invest the funds donated and to disburse income to the Board of The Hiltonian Society NPC to decide on spending. Trustees meet at least twice per year and accounts are subject to audit and annual statements rendered to the Board of Governors.

Ways to Give

Donors from the United States

We have an arrangement with Good Shepherd Ministries International (GSMI) in terms of which USA donations to Hilton College are tax deductible and passed on 100% to the school.

GSMI is managed by a Hilton Old Boy, Berin Gilfillan, and has been functioning as a 501(c)(3) non-profit corporation in the USA for more than 20 years. Your donation to the Hilton College Endowment Foundation through GSMI will, therefore, receive a 501(c)(3) tax certificate. The simplest way to make this contribution is to go to this link.

Donors from Canada

The Hilton College Foundation of Canada was registered with Canadian Revenue in mid-2010. 2012 represented a milestone in this project when the first Hilton College Foundation of Canada scholar, Langa Dubazana, entered Hilton at Grade 8 level. He has proved a most worthy recipient of the award. A second student, Singatha Jolwana, arrived in January 2015 and is currently in Grade 11. Trustee, Hugh Snyder, himself a major contributor to the Trust and Vula Programme, visited Hilton in November 2015, spending time with each of the scholars.

Canadian donors may contact James Camp, 1997, Churchill, via e-mail at james@campadvocacy.com
